"Here let the press the people's rights maintain, Unawed by influence and unbought by gain."

THE DARLY AND WREXLY STATE SENTINEL are the recognized organs of the Democracy of Indiana. As it has in the past, the Santinel will continue to advocate those principles and measures which are best calculated to advance the happiness, the prosperity and the freedom of the people from all unjust and unnecessary restraints. While cheerfully sustaining the Government as loyal citizens should, the Santinel will vigilantly watch all encompanies and proposed in the past the policy which we foresaw must produce disunion, so we are equally prompt to raise our voices against civil war. That the worst and croachments upon popular rights and the true principle of constitutional liberty. The freedom of speech and the freedom of the press are necessary to preserve and secure free in titutions. When these are struck down, no matter waat may be the apology therefor, from that day dates the decline of American liberty. In order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and posterity, the Sentines will fearlessly scrutinize and approve or condemn, as it believes the public good requires, all measures of the State and National Adstrations. It will ever keep in view the distinction

From Albany. ALBANY, Aug. 15.—The Breckenridge State Central Committee met at the Delavan House in this city yesterday, twelve members out of six-teen were present. Mr. John A. Green, Chairman, called the committee to order. After an interchange of views, the following resolutions

were adopted unanimously: Resolved, That this State Committee, representing that portion of the Democratic party of the State of New York which sustained the Maryland Institute Platform at the last election, most effectual argument that can be adduced to the seceding States is war. That we deny that the present struggle is in every sense a war for the Union, and insist that those who have precipitated the States into hostilities neither care nor

desire to restore the Union thereby. Resolved, That we advocate the proposition for an armistice between the now contending armies, North and South, and the immediate convocation of a convention of delegates from all the States between supporting the Government and the yenal acts of those who represent the Government. From Washington. WASHINGTON, August 16 .- The Herald's correspondent says!

Numberless incidents tend to show the rebels Last night it was discovered the rebel lines had been advanced in all directions towards the Potomac. Their force at Fairfax Court House has been largely increased. Heavy forces have been thrown out on all the roads. A large body is proceeding towards the Point of Rocks. Their scouting parties are in the immediate vicinity of our lines along the whole extent of the Potomac. The rebels in Baltimore to-day received intelligence that the rebels were then advancing upon Washington, and the information was published

PHYSICIANS.

DR. RALPHGRAME

MEMBER OF THE ROYAL COLLEGE OF PHYSICIANS, ENGLAND. GRADUATE OF RICORD'S FRENCH Hospital for Private Female Diseases, and Student of the celebrated Churchill, for the treatment of Lung Diseases, and for the treatment of Lung Diseases, and for the past ten years a constant attendant of the Oriental Hospitals, will be in INDIANAPOLIS, INDIANA, TILL THE FIRST OF SEPTEMB ER, 1861,

AT LITTLES HOTEL.

Where he will be happy to meet all those afflicted withay kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cared, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the groper instruments for examining the lungs, and those who have, are very few of them capable of Judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only possible plan to ascertain the true cause of disease.

The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America.

Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its true cause. He has no puffed nostrums that will cure all diseases.

The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity.

Seminal Weakness and Spermatorrhoea. It is a melancholy fact that thousands who are suffering under pale and insufate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease insidiously creeping on, every faculty is shattered, constitution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms in prompt and proper medical treatment. The earlier this is sought the casier the cure. Generally the first symptoms in males, are noctural and sometimes durnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and hectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian Herb Doctor and his new method of cure. He uses an instrument that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an honest, condid and true statement of their case, and the possibility of his giving them relief—gratis.

The Doctor permanently cures the Piles, and defies the world to compete with him on Female Complaints.

The Dr. challenges the whole Medical Faculty for the treatment of Lung, Liver, Kidney Diseases and Dyspepsia. jau23

SEWING MACHINES

Every Machine Fully Warranted. We have now open at our rooms, No. 2 Bate Tis now decided by the best Machinests and the public House, the most elegant assortment of Spring Machines the New Improved Never-Failing Looper, and Reverse Wheel. The Franklin and Keystone State are the only Machines that have these important improvements, which now give them the preference over all others. Every one should examine and thoroughly test them before making their se-

lection, as they are rapidly taking the place of all others.
In these Machines we do away with all the complicated
Scrkws, Wines, Shutties, Robbins, Chooked and Cincu-LAR NEEDLES, of other machines, which render them at once greatly superior to any heretofore offered the public, for the many different kinds of family and manufacstitch that will not rip or ravel, though every fourth one be cut. This stitch is stronger and more elastic than that made by hand. It is decided by competent judges to be more than twice as strong as the stitch made with shultles

The great room under the arm renders them desirable for large work, and various kinds of quilting purposes.

These Machines make the only stitch with which you On these Machines you can use any kind of spool silk, Cotton or linen thread.

These Machines are almost noiseless in operation.
